Adithya G S

Backend Software Engineer | Java & Spring Boot | Distributed Systems & Cloud

Bengaluru, India | adithyaaadi563@gmail.com | LinkedIn | GitHub | Portfolio

Summary

Backend-focused engineer with **3+ years** building and operating production SaaS applications. Experienced in Java/Spring Boot, asynchronous workflows, API design, data-intensive systems, and cloud deployments. Focused on practical architecture tradeoffs, performance, reliability, and end-to-end delivery while providing technical guidance to a small engineering team.

Technical Skills

Languages: Java, TypeScript, JavaScript, Python, SQL
Backend: Spring Boot, Spring WebFlux, Spring Security, JPA/Hibernate, Node.js, Express.js, REST APIs, OpenAPI
Frontend: React.js, Next.js, Redux, Redux-Saga, Zustand, Ant Design, Material UI
Databases & Messaging: PostgreSQL, TimescaleDB, MongoDB, Redis, BullMQ, Elasticsearch, Apache Kafka, SQS
Cloud & DevOps: AWS (ECS, Lambda, S3, RDS, CodeBuild), Docker, Kubernetes, Azure Functions, GitHub Actions, Maven
Testing: JUnit, Mockito, Jest, Unit Testing, Integration Testing
Architecture: Microservices, Distributed Systems, Event-Driven Architecture, Multi-Tenant Architecture, System Design, REST API Design
Engineering Practices: CI/CD, Performance Optimization, Multithreading, Idempotency, Code Reviews, Agile/Sprint Planning, OAuth2, JWT

AI Engineering: LLM Tool Calling, AI Agents, MCP, LangChain, LangGraph

Work Experience

Nighthack Labs **Jun 2024 – Present**
Lead Software Engineer

Yirla | Advertising Analytics Platform

- Helped separate transactional and analytical database workloads by introducing a dedicated TimescaleDB analytical store, with indexing, hypertables, backup procedures, and migration validation.
- Optimized slow analytics APIs by resolving **N+1 queries**, improving SQL access patterns, and moving expensive request-time aggregations into **dbt analytical models**, substantially improving response times.
- Improved customer onboarding through priority-based **Airbyte** ingestion, incremental historical synchronization, and orchestrated dbt updates, making reporting data available sooner.
- Built and maintained **OAuth2 integrations** with advertising and analytics providers, including secure third-party token handling.

Appizap | Low-Code SaaS Platform

- Developed REST APIs, marketplace features, and subscription workflows in a **Spring WebFlux** and reactive MongoDB application. Built a **Node.js/BullMQ** service for workspace-scoped integration credentials.
- Moved long-running background jobs from application workers to **AWS SQS/Lambda and Azure Queue/Functions**, improving workload isolation and scaling. Added atomic MongoDB job claims, retries, dead-letter queues, and execution-state tracking.
- Developed asynchronous usage metering with event batching, **Elasticsearch**, reconciliation, and retryable workers integrating **Lago** with subscription and payment workflows.

Motivision | AI-Assisted Fitness Platform

- Redesigned synchronous media exports into an asynchronous **Java CompletableFuture** workflow using bounded concurrency, dedicated executors, single-writer ZIP assembly, and S3 multipart uploads, with retries and completion notifications.
- Built and maintained production APIs, media workflows, and JWT/RBAC-based access controls. Improved post-login responsiveness by optimizing API fetching and frontend state management.
- Supported containerized deployments with **AWS CodeBuild, ECR, ECS, S3, and RDS**; contributed to architecture, code reviews, release management, troubleshooting, and guidance for a small engineering team.

Incture Technologies **Aug 2023 – May 2024**
Associate Software Engineer

- Developed Java/Spring Boot REST APIs and Hibernate persistence for an enterprise accounts-payable automation application, implementing workflow logic, validations, exception handling, unit tests, and SAP HANA access. Also contributed React/Redux integration fixes.

Education

PES College of Engineering, Mandya **2019 – 2023**
B.E., Electronics and Communication Engineering | CGPA: 9.02/10
